John Speller

Chair of Governors

Review date: May 2020

In drawing up an accessibility plan it will be helpful to carry out:

1. An audit of the accessibility of the buildings.

This will help to identify and prioritise access issues around the physical environment. It will also suggest strategies for achieving these targets that can be reflected in a revised accessibility plan and shared with the Local Authority.

Support for carrying out an audit is also available from the Index for Inclusion (CSIE) <u>www.inclusion.org.uk</u> or Inclusion Quality Mark <u>www.publicsectormatter.com</u>

2. Development of staff awareness and understanding of disability discrimination, access issues and the promotion of disability equality.

Support, advice and training on these issues can be sought from a number of services within the Local Authority and voluntary and community groups, including the School Improvement Service, Equalities Officers, Special Educational Needs Team, Psychology and Learning Team, Kent Disability Association and the DARE Foundation (Disability and Rehabilitation Education).

3. The school is aware of the access needs of disabled children, staff and parents.

The school begins by ensuring the information needs of existing disabled pupils are being met. It then goes on to consider what it would need to respond to the needs of future disabled pupils. It also considers the access needs of staff and parents.

Improving access to the physical environment:

	Targets	Actions	Timescale	Responsibility	Outcomes
