

Current Parent Quotes November 2021

Colliers Green Primary School is a wonderful community, not just for its pupils but also the families. I have made so many good friends who are very supportive and willing to help someone in need. Everyone is very caring and the staff are very much invested in the pupils and the school.

Look no further..... my daughter is in reception and is a shy little girl, nevertheless she loves coming to Colliers Green and often wants to be the first in the playground. She always talks about her lovely teachers. In the term, she has been at C.G she can write, sound and recognise so many different letters. She has made some lovely friends.
So pleased we got Colliers Green school.

We love Colliers Green and are proud to be a part of the school. The staff and teachers always go above and beyond. The effort made for the Year 6 leavers during lockdown was amazing, we could not have asked for more.

Having got 3 happy children at Colliers Green, I can honestly speak about this being a strong community school, where everyone, including parents, feel like they are part of the special community. The children are always encouraged to look out for each other and do so with pride. It has always been a nurturing, welcoming and friendly school that I would thoroughly recommend to anyone.

Every parent wants their child to be happy at school. I have been a parent at Colliers Green now for 10 years and there has not been a day when either of my girls have taken a backward glance when going through the school gates. You know your children are happy when they do not want to leave at the end of the day!

Colliers Green has a very unique setting and is blessed with beautiful grounds and access through the fields to their Forest School. This fabulous outdoor classroom allows children to learn through their surroundings and I have been privileged enough to witness first hand many of the children developing skills like working as a team and problem solving as well as having the opportunity to learn how to light a campfire or to saw wood.

The last year has been unusual to say the least but the staff at Colliers Green have worked tirelessly to provide for our children. During the first lockdown, they provided the children with their work via Google Classrooms and recorded assemblies and stories for the children to listen to. Going back to school in September could have been very daunting but all the measures put in place to keep staff and children safe have been exceptional.

I am proud to say my daughter goes to Colliers Green Primary School.

Because my 4 year old told me this morning "Mummy I have the best teachers in the whole wide world" and because both my children at CG are so so happy there. There is a real warmth at Colliers Green - such a special school.

I cannot thank and praise Colliers Green enough; the staff are always friendly and helpful and have the children's best interest.

My daughter has thrived in her first term and comes home beaming with pride, the teachers in Class 1 are superb and help the children grow in everything. They have a great school, home life balance and take a keen interest in children's lives. This has been great for her as she lacks in confidence and has enjoyed taking about home.

Even through these difficult times, I have been nothing but encouraged and reassured by Colliers Green that this is a fantastic school. The Colliers Green community is very welcoming and they cannot do enough for you. I look forward to Iris having a wonderful school life ahead. Thank you Colliers Green.

It is a daunting prospect to send your child to school - especially the 1st one.

Will they like it?
Will they have fun?

Current Parent Quotes November 2021

Will they fit in? Will I?

The answer is they will at our school as we are a family and I know when I drop my 3 kids off every morning they are being cared for by people who will care for them, as would I!

As parents, what we love about Colliers Green, is the warm, caring and nurturing ethos that the school has. It is visible in all aspects of school life. We have had all 3 of our children go to Colliers Green and we would not have wanted to send them anywhere else. Each child has been treated as an individual and encouraged to reach their full potential. When I asked our youngest what her favourite thing about school was, she said the lovely teachers! We could not be happier with our time at Colliers Green and recommend the school to all who ask.

We have had 3 children who have been lucky enough to have Colliers Green as their primary school since 2008 to present.

We love the fact that our children feel safe, nurtured and happy. They have always thrived at this lovely little school.

The forest school is a little gem allowing the children to have an amazing outdoor learning space.

The staff are always helpful and kind.

Many thanks.

It is really hard to sum up how fantastic Colliers Green is in just a few words; it is like one big family.

The teachers and TAs are fantastic, and go the extra mile to show they care, especially during lockdown and the home-schooling period, when they were in regular communication with parents and children, to check how we were doing - despite having their own families to care for. This made such a big difference during a difficult time.

Happiness, community, safety and good values.

Colliers Green is a wonderful school for your child to grow, evolve and learn

After making the nerve-wracking decision to change our children's school and join Colliers Green, we can honestly say that it was one of the best decisions we have ever made. Colliers Green is everything you could want in a primary school and so much more. The teachers genuinely care about the children and really know how to get the very best from them, in a caring and compassionate way. Our children are so happy and settled; they genuinely love going to school to learn.

Colliers Green has excellent values and a great community. Our daughter really enjoyed her reception year and the buddy system really worked well. She has made many friends and has gained a huge amount of confidence, which is down to the support of her teachers.

It is really hard to sum up how fantastic Colliers Green is in just a few words; it is like one big family.

The teachers and TAs are fantastic, and go the extra mile to show they care, especially during lockdown and the home schooling period, when they were in regular communication with parents and children, to check how we were doing - despite having their own families to care for. This made such a big difference during a difficult time.

We love Colliers Green. Its small size ensures that children are nurtured and comfortable therefore their learning can flourish. The gorgeous new classrooms are purpose built to meet all their needs. The surroundings of the school are beautiful. It is wonderful that the children get to explore this in forest school learning new valuable skills. The school always do their best to give their all to the students with trips, seasonal activities and fun after school clubs.

We really do have a wonderful school and my son is very happy.
